

PROSPECTION MYCOLOGIQUE

HIRTZFELDEN

SAMEDI 09 NOVEMBRE 2024

**SORTIE ORGANISEE PAR LA SMHR
(SOCIETE MYCOLOGIQUE DU HAUT-RHIN)**

**EN COLLABORATION AVEC
LA MAISON DE LA NATURE DU VIEUX CANAL
A HIRTZFELDEN**

5EME PARTIE

Guides : Bernard DISS et Jean-Pierre MEYER

Déterminateurs :

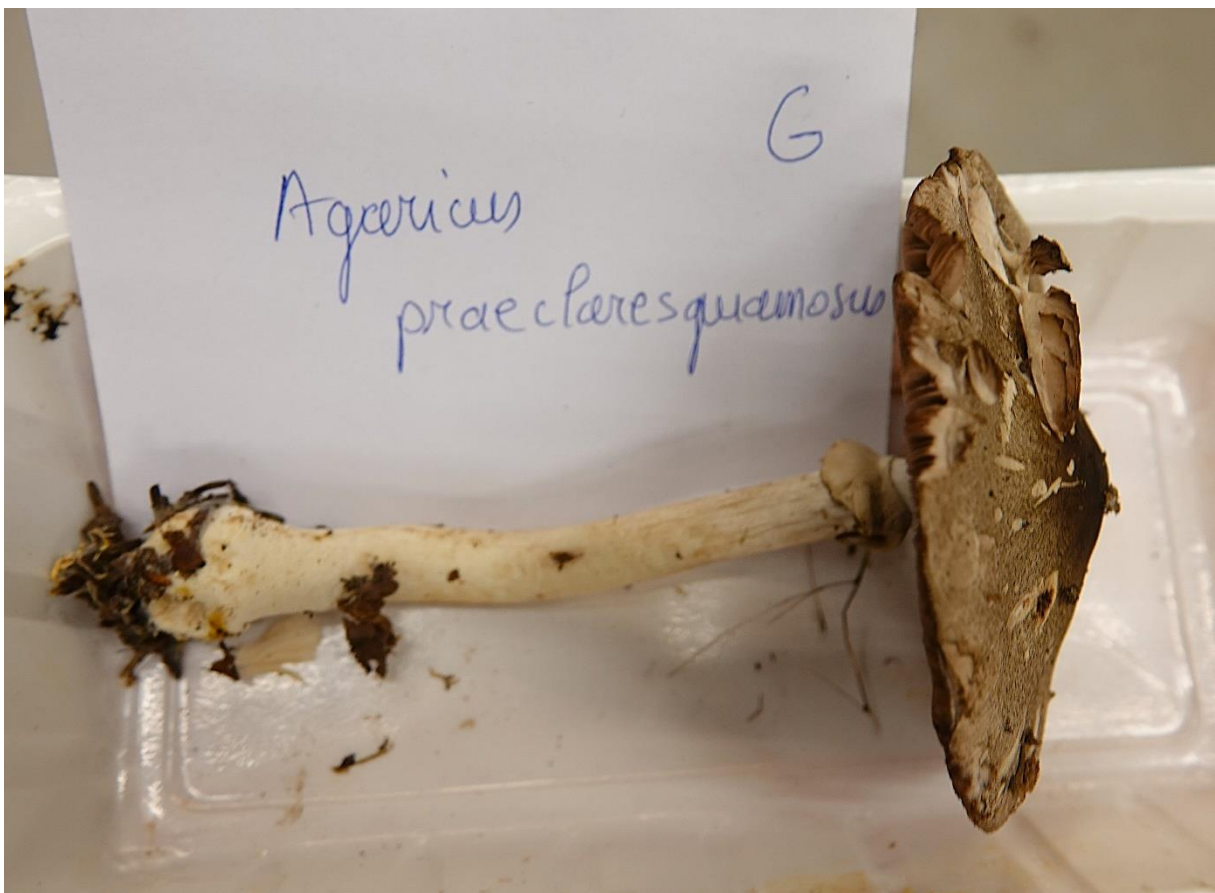

**Bernard DISS - Daniel DOLL - Thomas ISARNO - Marc JOLY
Jean-Luc MULLER**

Photographies réalisées par Philippe DEFRANOUX

(Champignons classés alphabétiquement par noms scientifiques)

**CHAMPIGNONS PRESENTES
A LA MAISON DE LA NATURE A HIRTZFELDEN
AYANT ETE RECOLTES HORS DE HIRTZFELDEN**

PROVENANCE SOULTZMATT « GAUCHMATT »

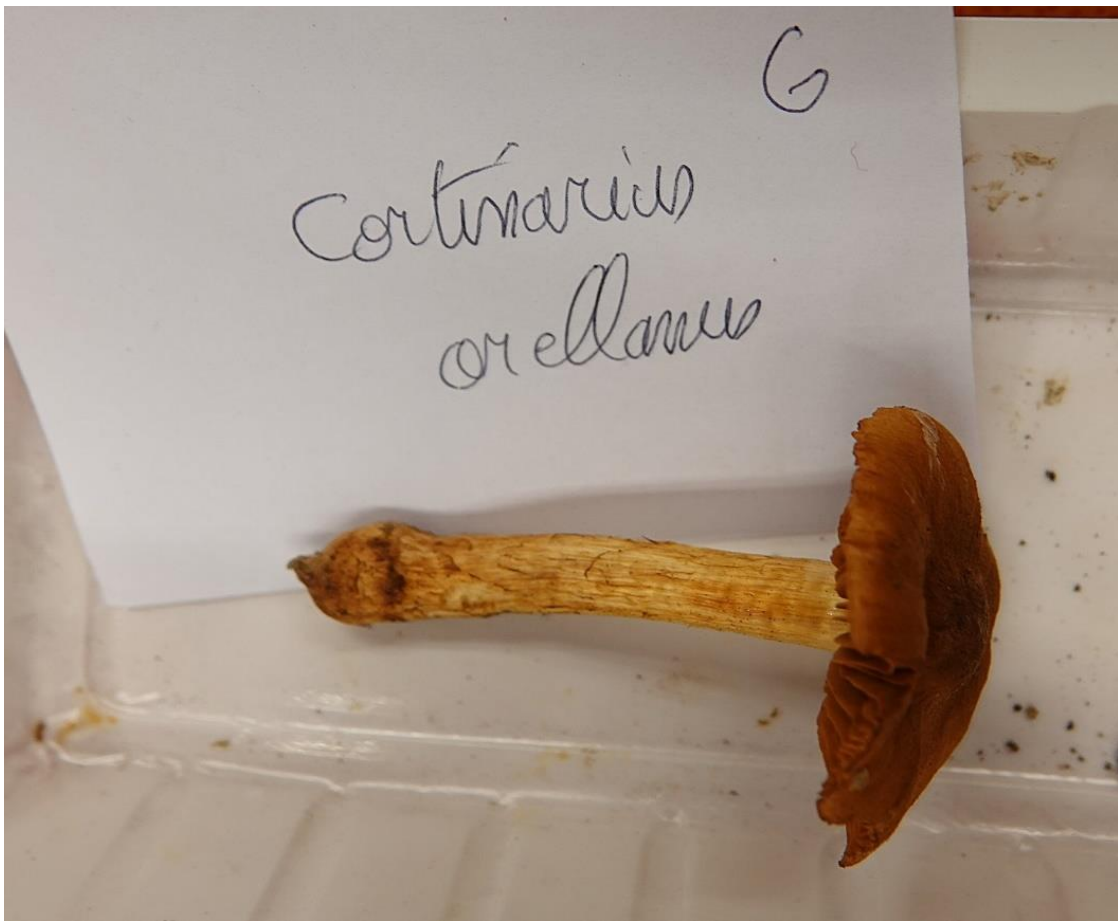

***Agaricus praeclaresquamosus* A.E. Freeman (1979)
Agaric pintade - Agaricales - Agaricaceae**

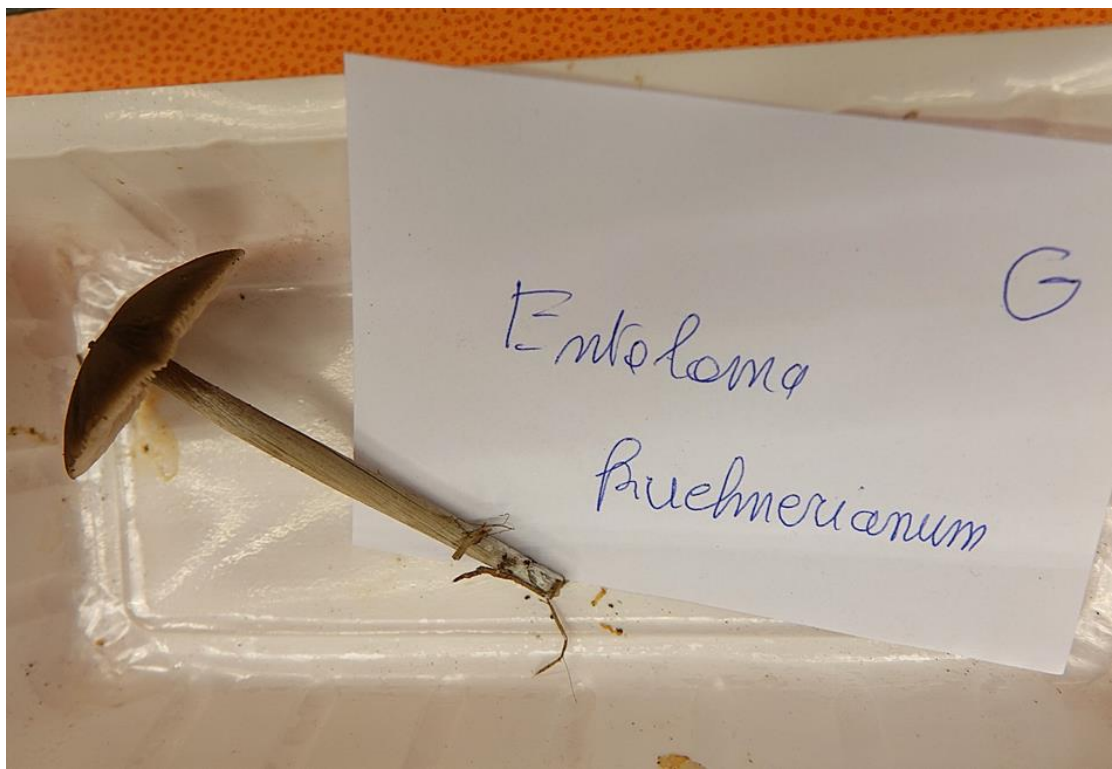

***Amanita citrina* Pers., 1797 - Amanite citrine - Amanitales - Amanitaceae**

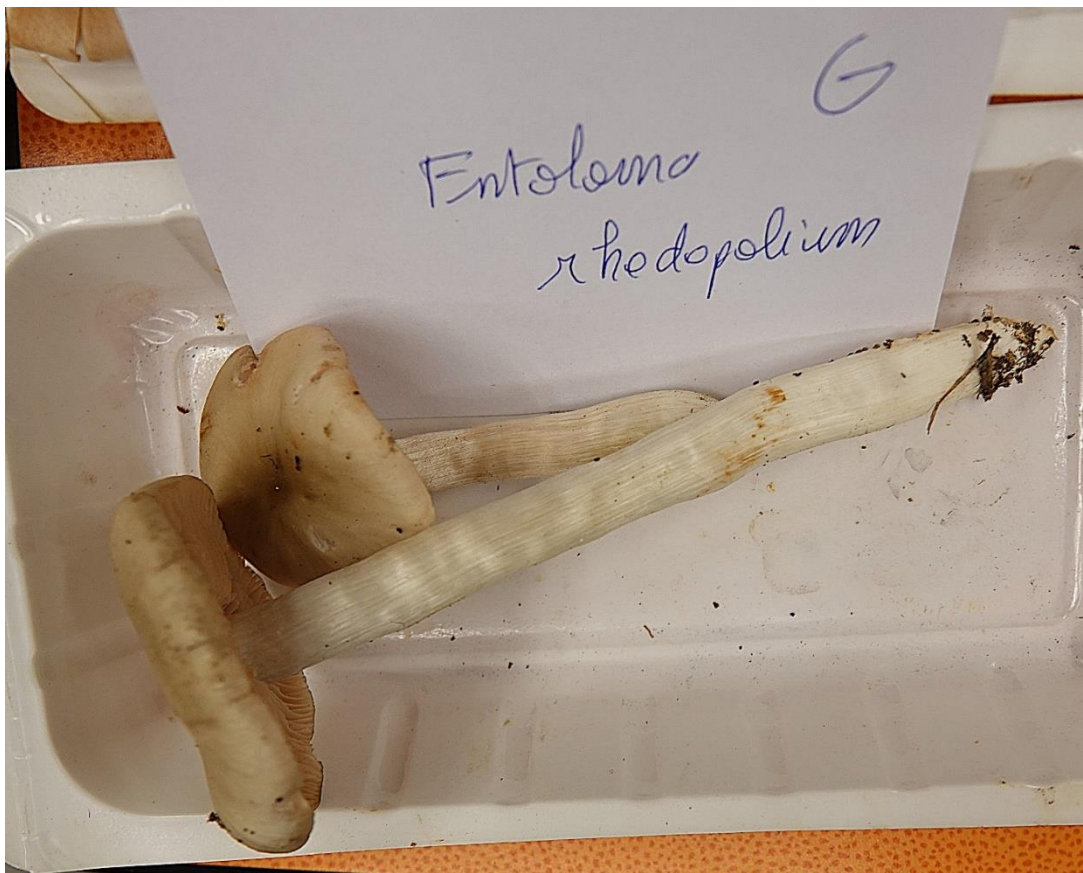

***Cortinarius melanotus* Kalchbr., 1874
Cortinaire à squames brunes - Agaricales - Cortinariaceae**

***Cortinarius orellanus* Fr., 1838**
Cortinaire à couleur de rocou - Cortinaire des montagnes
Agaricales - Cortinariaceae

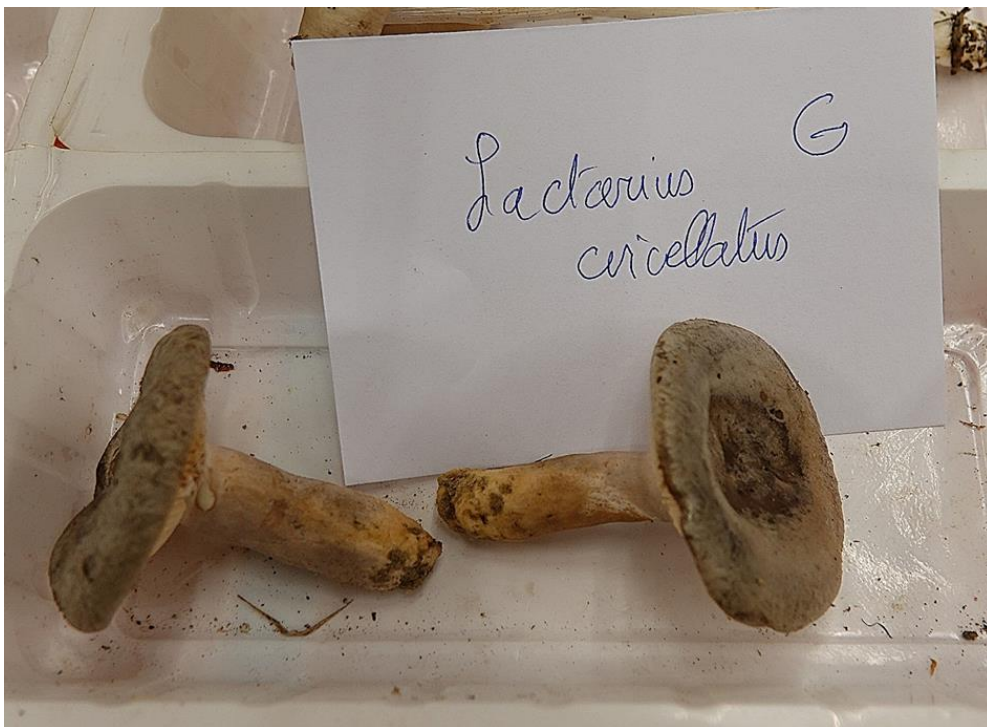

***Entoloma kuehnerianum* Noordel., 1985**
Entolome de Kühner - Entolomatales - Entolomataceae

***Entoloma rhodopolium* (Fr.) P. Kumm., 1871**
Entolome rose-gris - Entolomatales - Entolomataceae

***Lactarius chrysorrheus* Fr., 1838**
Lactaire à lait jaunissant - Russulales - Russulaceae

***Lactarius circellatus* Fr., 1838 - Lactaire cerclé - Russulales - Russulaceae**

(Nota : un doute subsiste avec *Lactarius flexuosus*)

Lactarius quietus (Fr.) Fr., 1838
Lactaire tranquille - Russulales - Russulaceae

Lactarius salmonicolor R. Heim & Leclair, 1953
Lactaire saumon - Russulales - Russulaceae

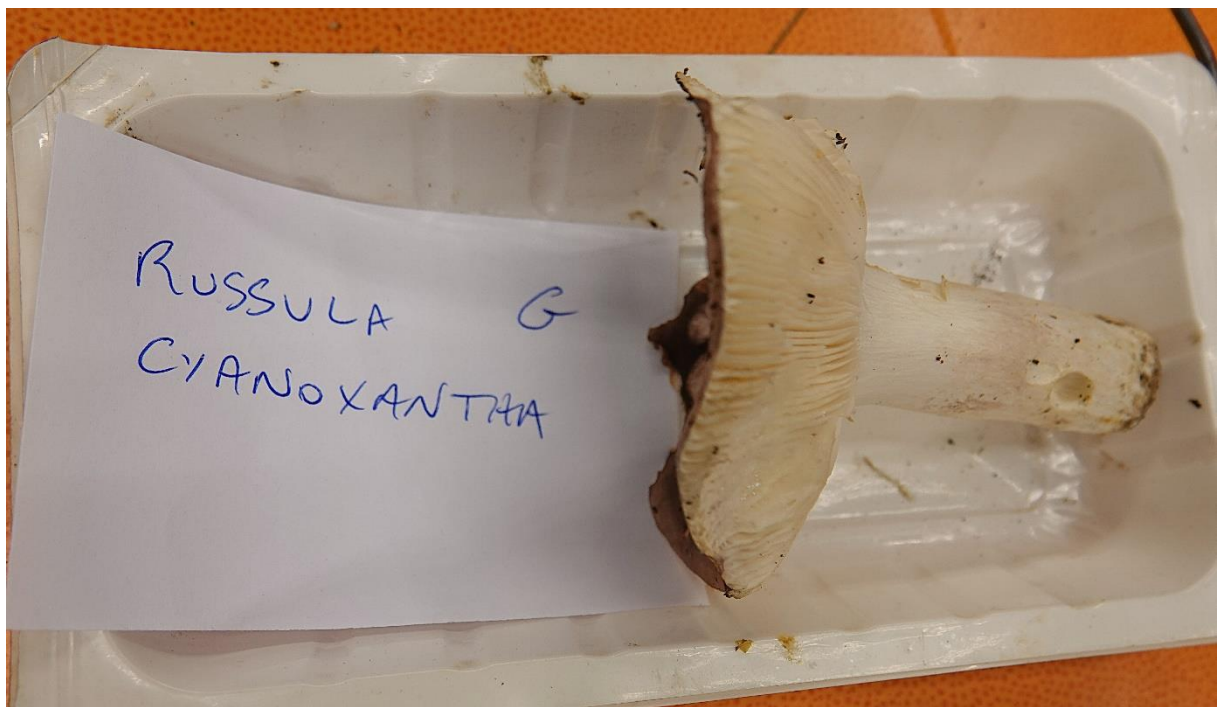

***Lactarius subumbonatus* Lindgr., 1845**
Lactaire chagriné - Russulales - Russulaceae

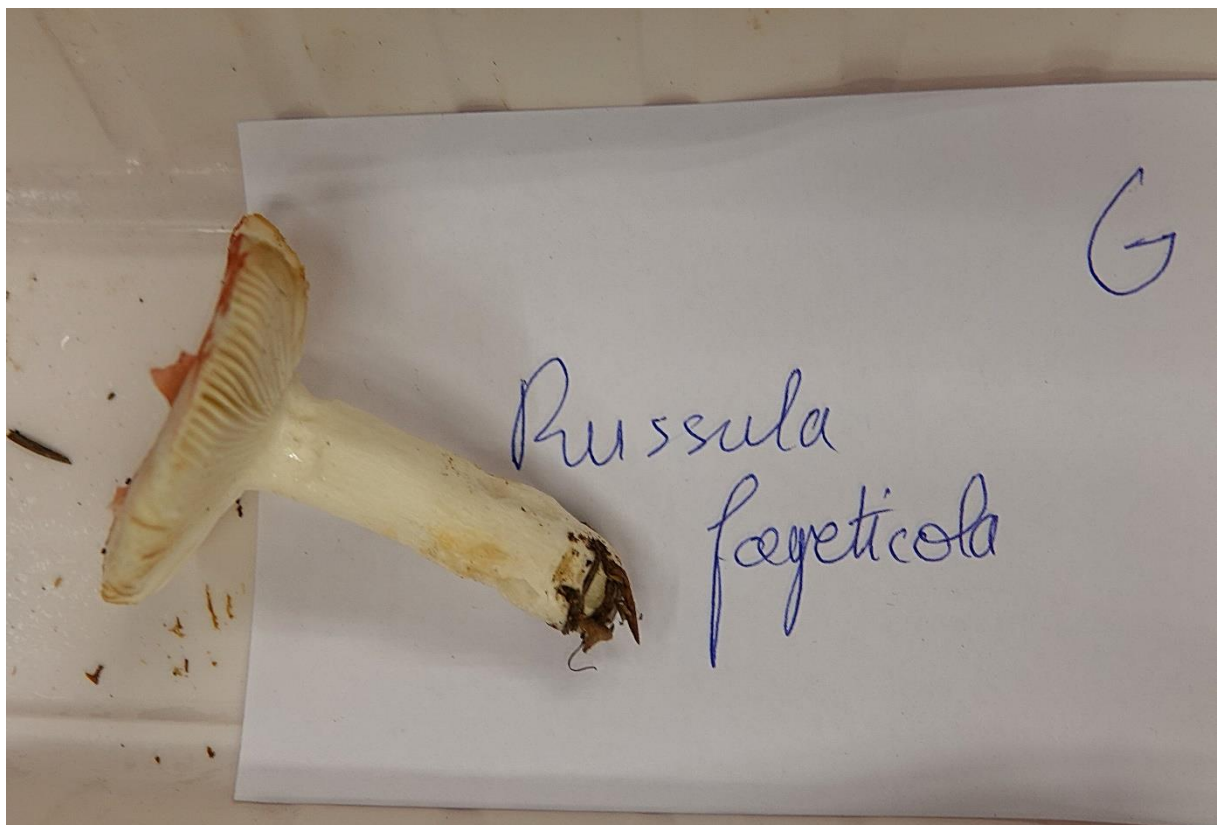

***Mycena inclinata* (Fr.) Quél., 1872**
Mycène inclinée - Russulales - Russulaceae

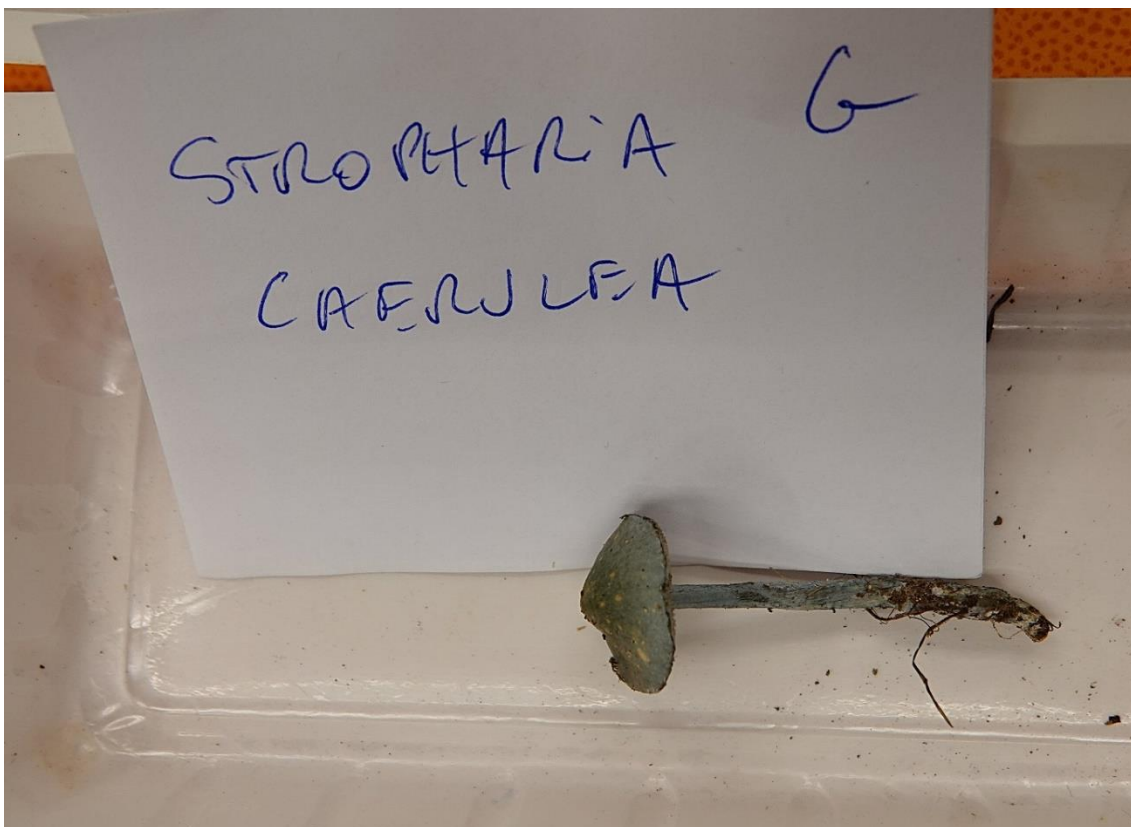

Pseudocraterellus sinuosus (Fries) D.A. Reid, 1962
Chanterelle sinueuse - Cantharellales - Cantharellaceae

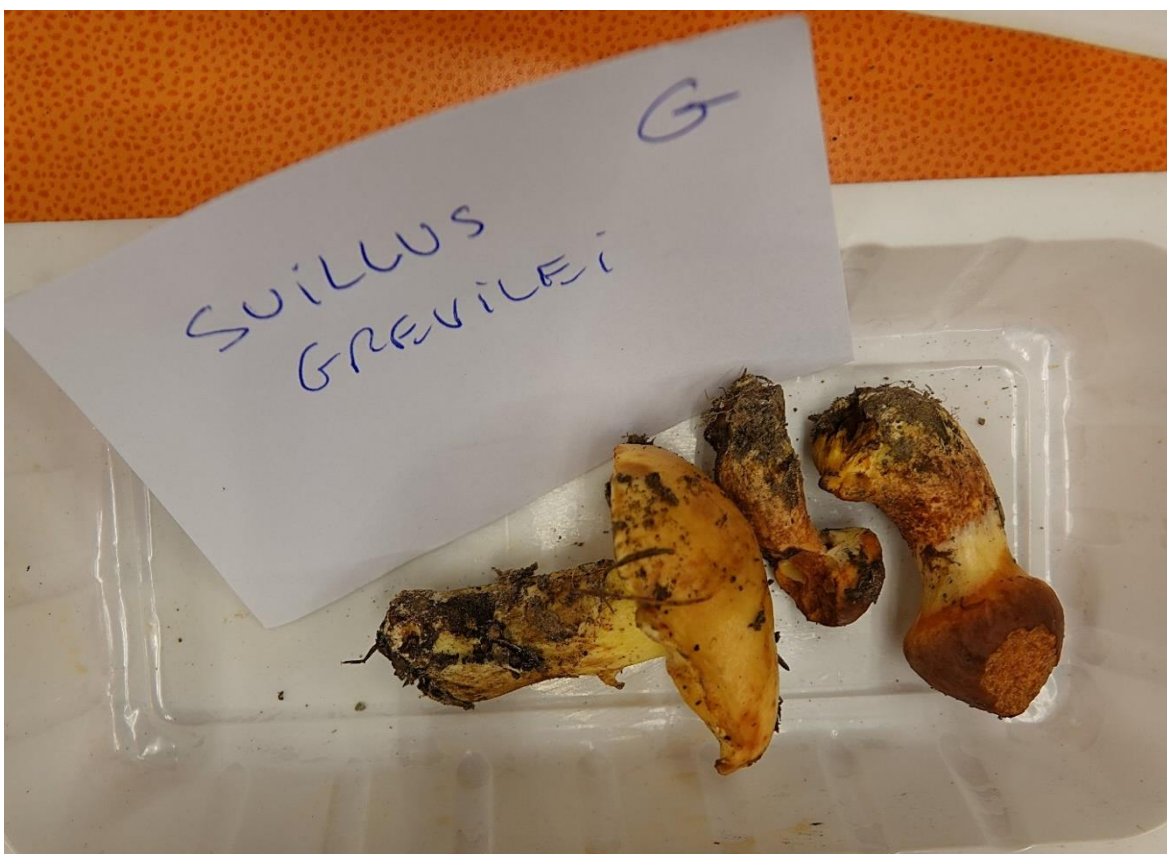

***Russula cyanoxantha* (Schaeff.) Fr., 1863**
Russule charbonnière - Russulales - Russulaceae

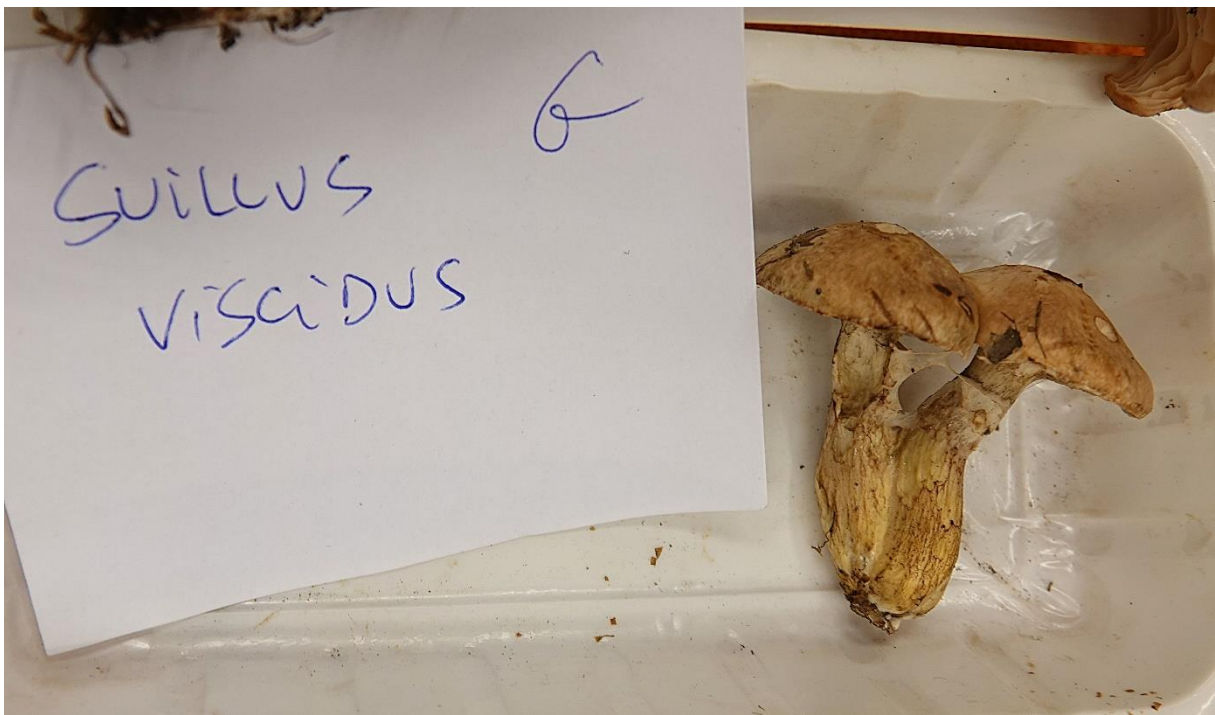

***Russula fageticola* Melzer ex S. Lundell, 1956**
Russule émétique des hêtres - Russulales - Russulaceae

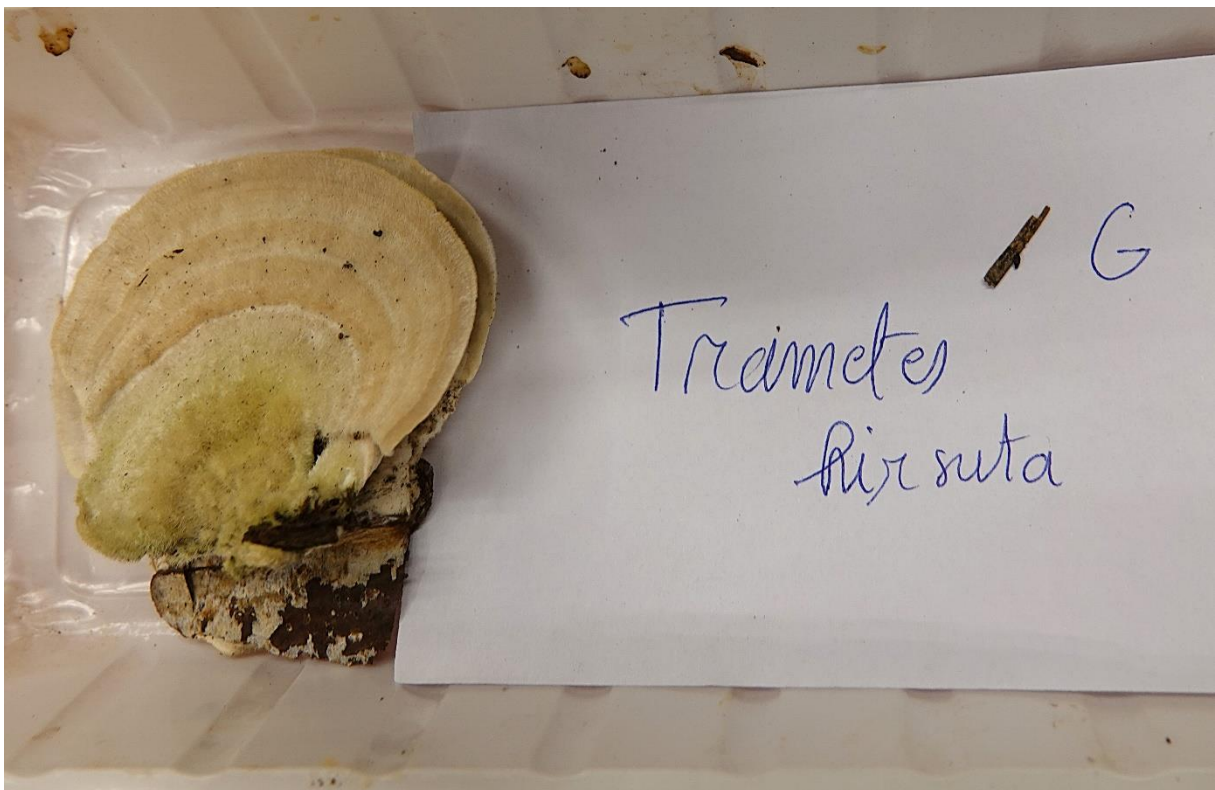

Stropharia caerulea Kreisel, 1979
Strophaire bleue - Agaricales - Strophariaceae

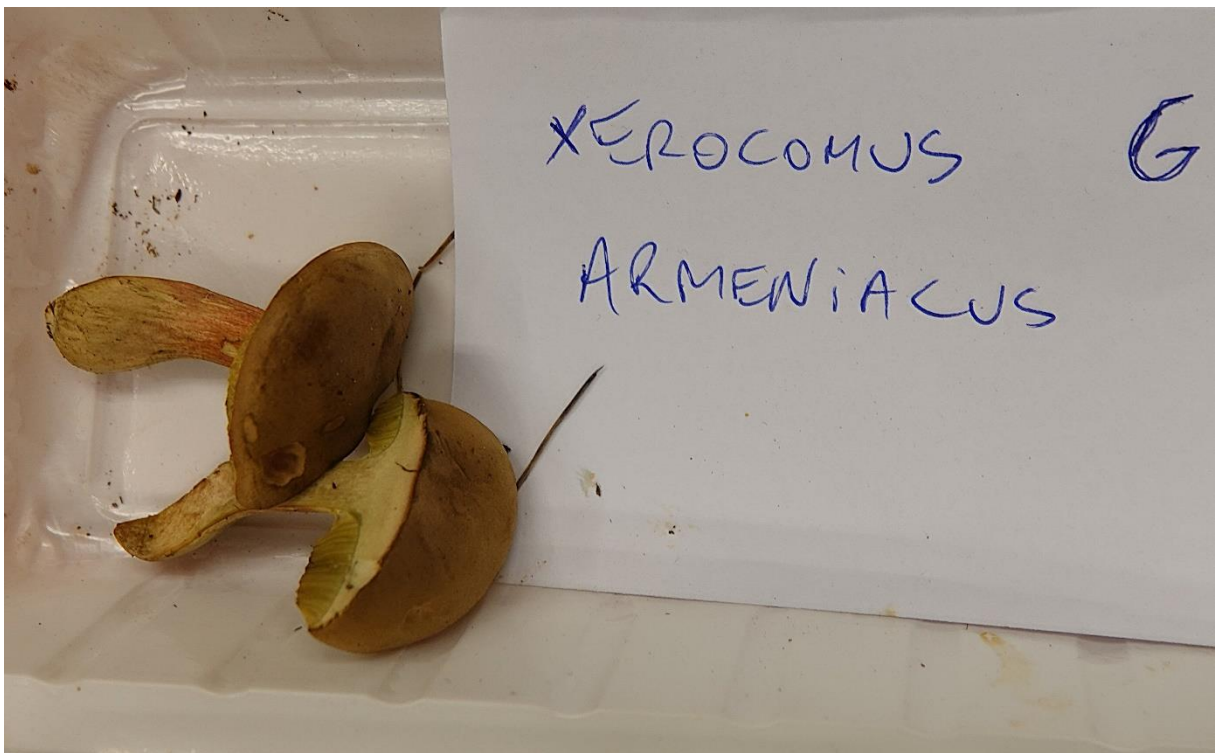

Suillus grevillei (Klotzsch) Singer, 1945
Bolet élégant - Boletales - Suillaceae

***Suillus viscidus* (L.) Roussel, 1796**
Bolet gris des mélèzes - Boletales - Suillaceae

***Trametes hirsuta* (Wulfen) Pilát, 1939**
Tramète hirsute - Polyporales - Polyporaceae

***Rheubarbariboletus armeniacus* (Quélet) Vizzini, Simonini & Gelardi, 2015**
Synonyme MycoDB non indiqué dans l'INPN :
***Xerocomus armeniacus* (Quélet) Quélet (1888)**
Bolet abricot - Boletales - Boletaceae

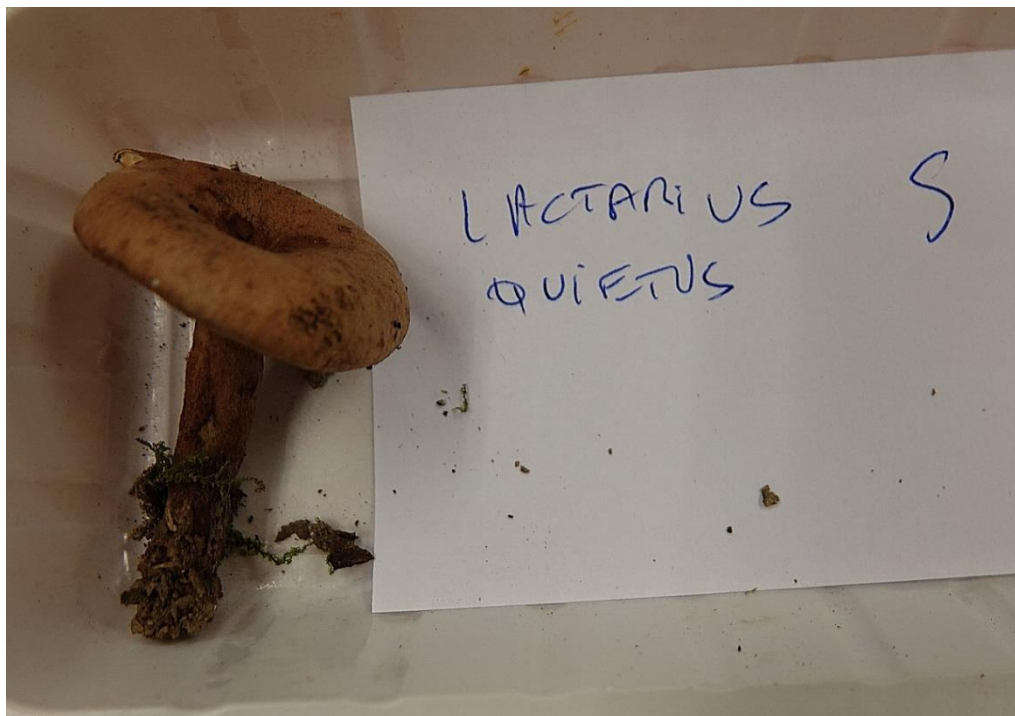

PROVENANCE STEINBACH

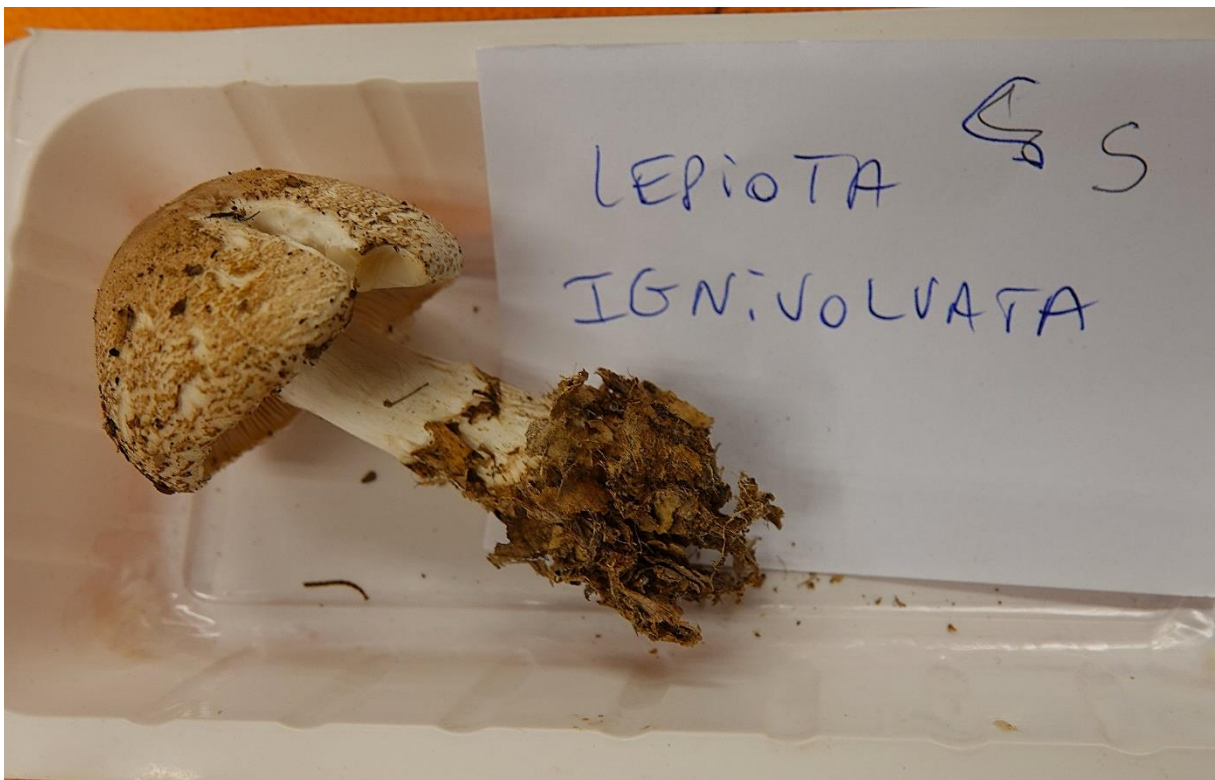

***Amanita gemmata* (Fries) Bertillon, 1866
Synonyme : *Amanita junquillea* Quél., 1877
Amanite jonquille - Amanitales - Amanitaceae**

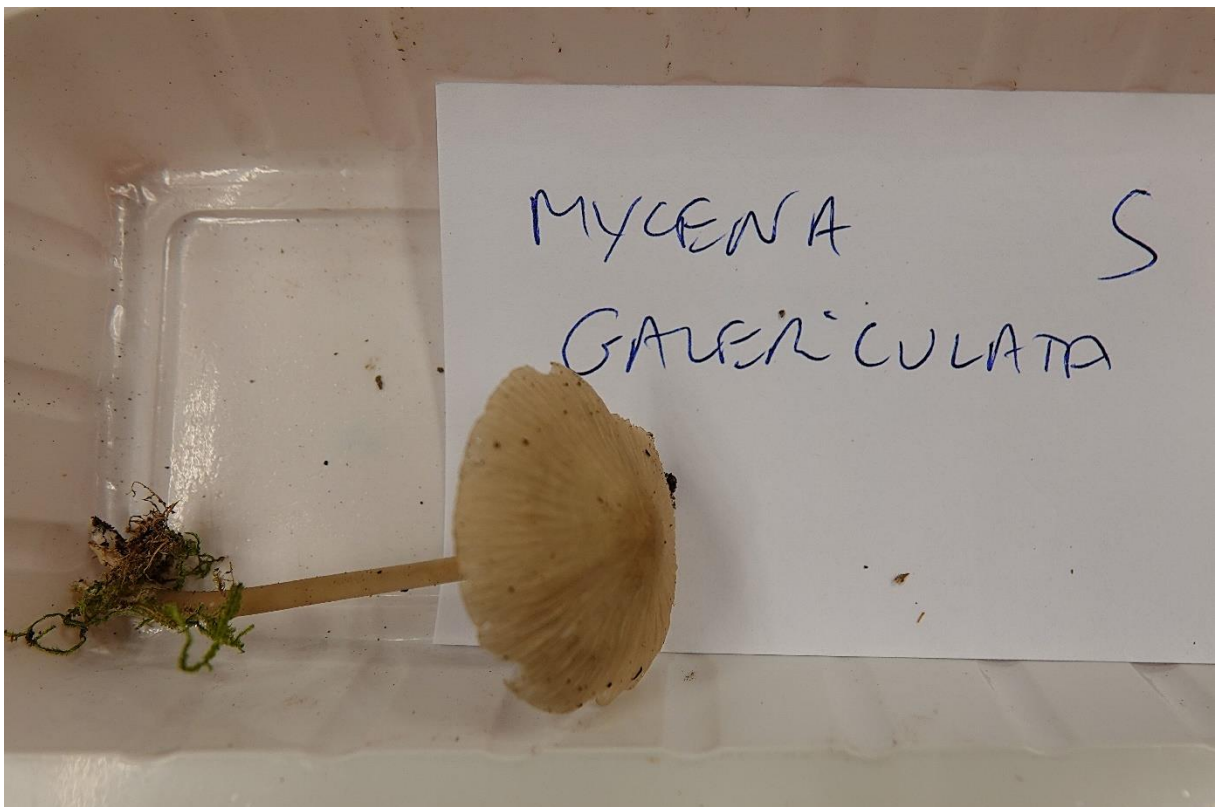

***Apioperdon pyriforme* (Schaeff.) Vizzini, 2017**
Synonyme MycoDB non indiqué dans l'INPN :
***Lycoperdon pyriforme* Schaeffer (1774)**
Vesse de loup en poire - Lycoperdales - Lycoperdaceae

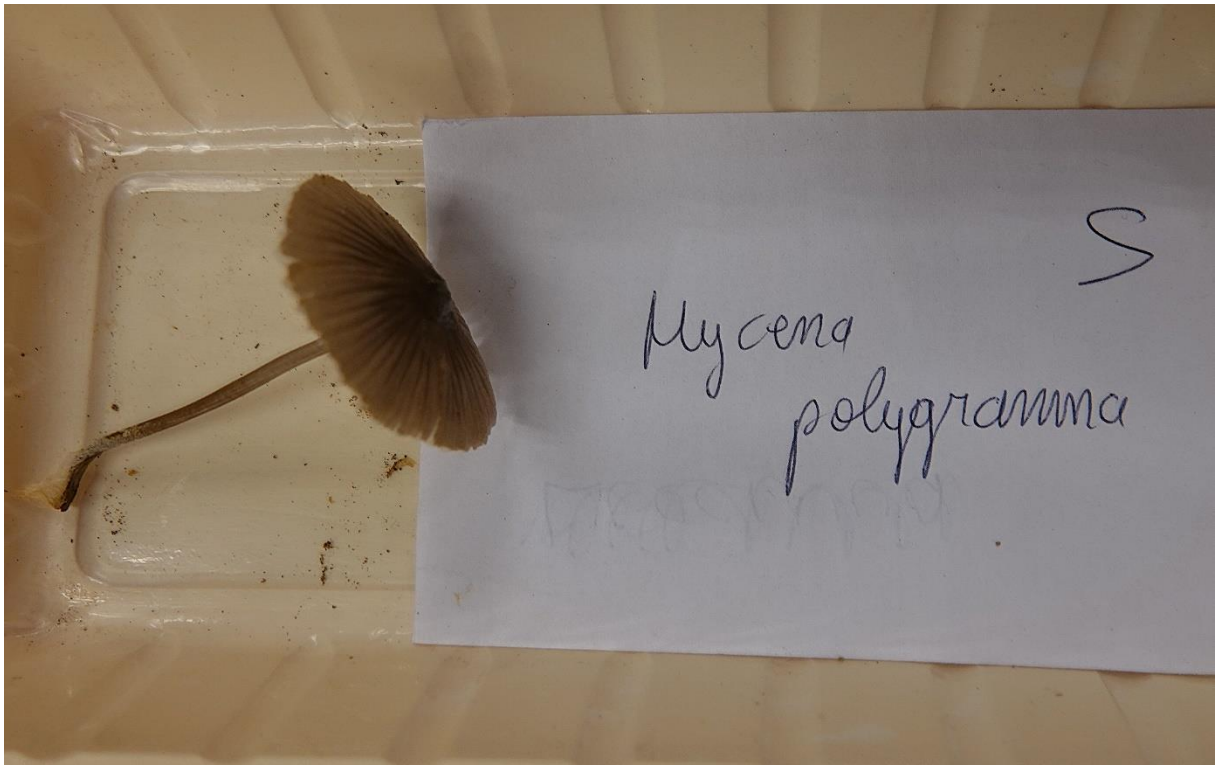

***Lactarius quietus* (Fr.) Fr., 1838**
Lactaire tranquille - Russulales - Russulaceae

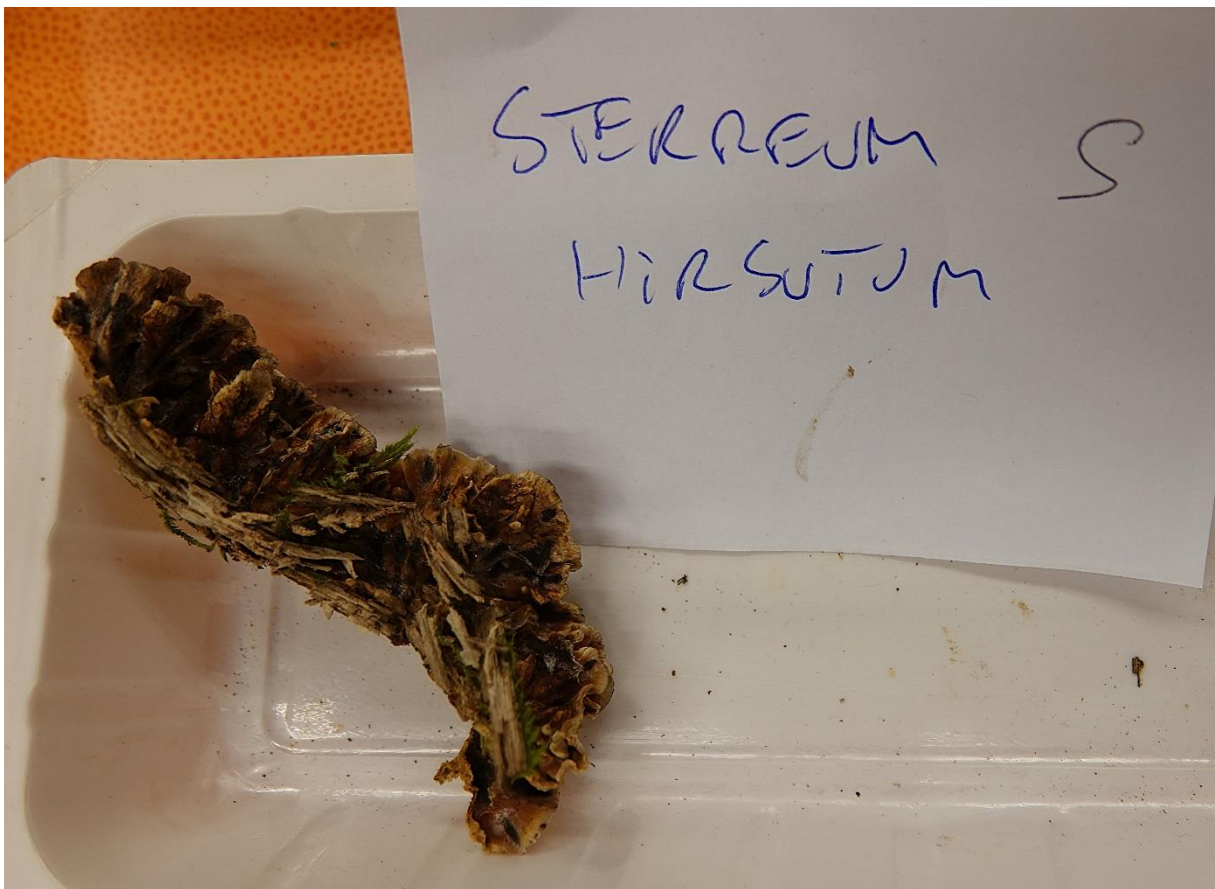

Lepiota ignivolvata Bousset & Joss., 1948
Lépiote à base couleur de feu - Agaricales - Agaricaceae

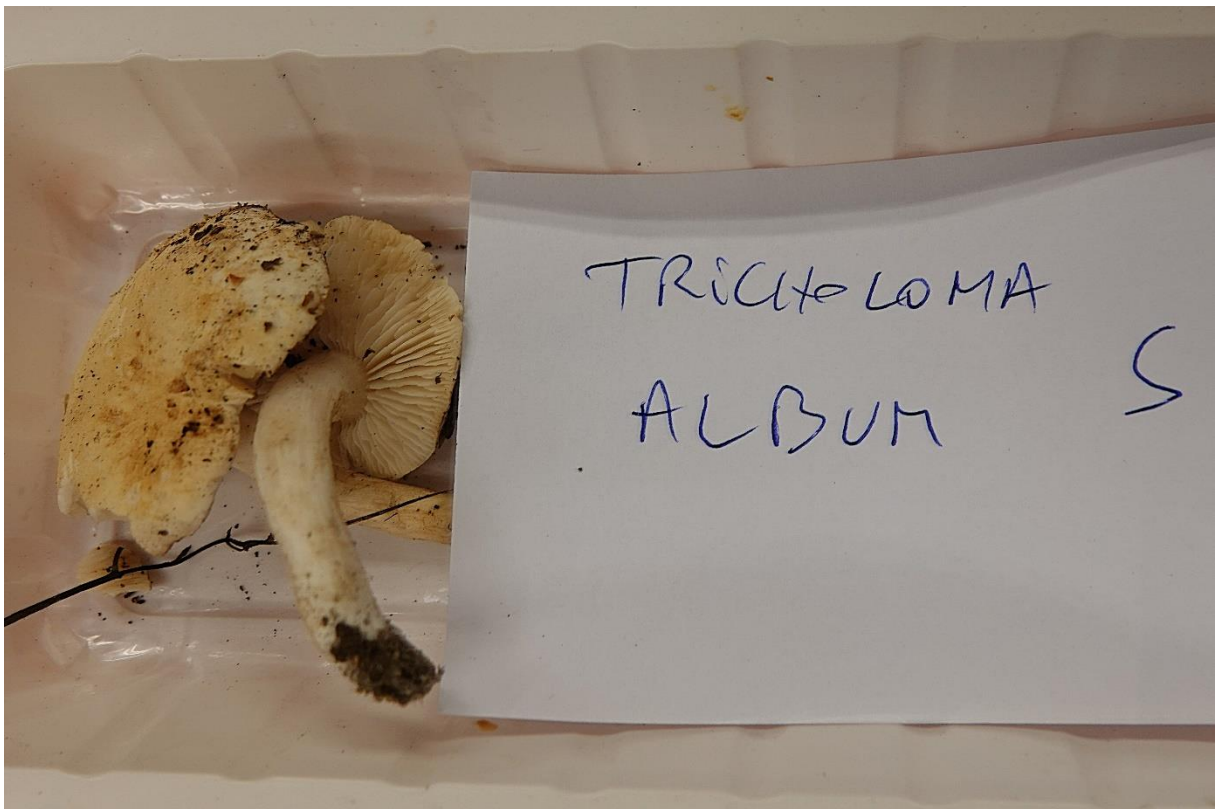

Mycena galericulata (Scop.) Gray, 1821
Mycène casquée - Tricholomatales - Mycenaceae

***Mycena polygramma* (Bull.) Gray, 1821**
Mycène à pied strié - Tricholomatales - Mycenaceae

***Stereum hirsutum* (Willd.) Pers., 1800**
Stérée hirsute - Polyporales - Stereaceae

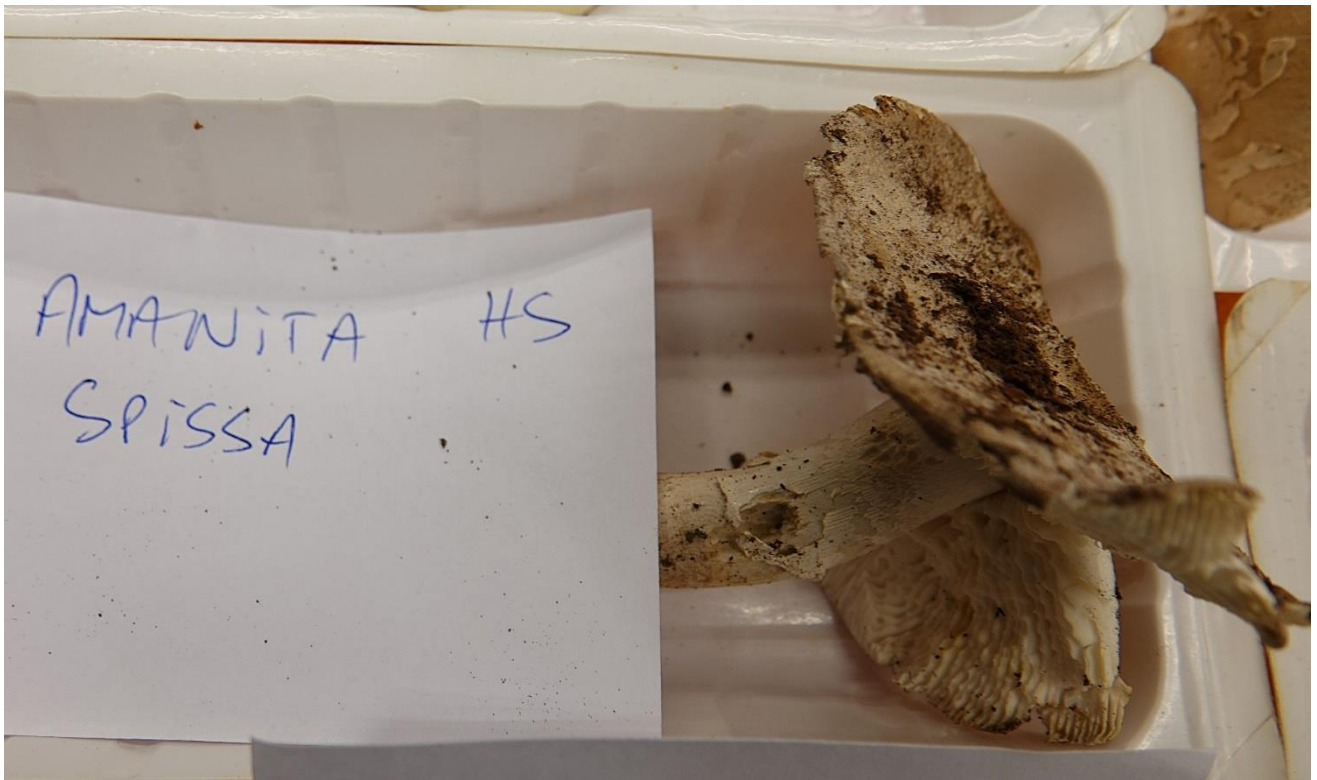

***Tricholoma album* (Schaeff.) P. Kumm., 1871**
Tricholome blanc - Agaricales - Tricholomataceae

HAUTE-SAÔNE (Marc JOLY)

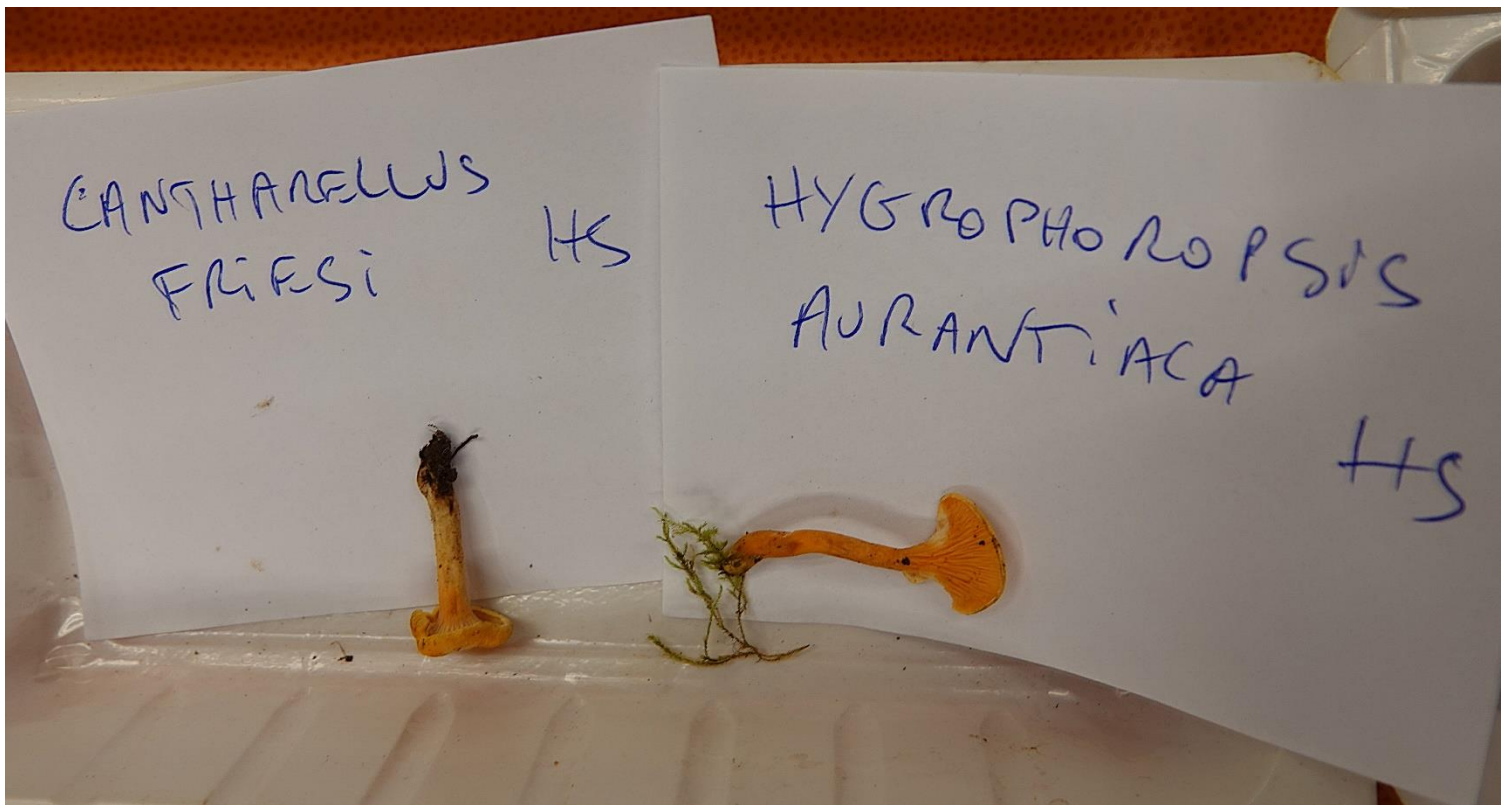

***Amanita citrina* Pers., 1797 - Amanite citrine - Amanitales - Amanitaceae**

***Amanita excelsa* var. *spissa* (Fr.) Neville & Poumarat, 2004**
Amanite épaisse - Amanitales - Amanitaceae

***Neoboletus erythropus* (Pers.) C. Hahn, 2015**
Synonyme MycoDB non indiqué dans l'INPN :
***Boletus erythropus* Persoon, 1795**
Bolet à pied rouge - Boletales - Boletaceae

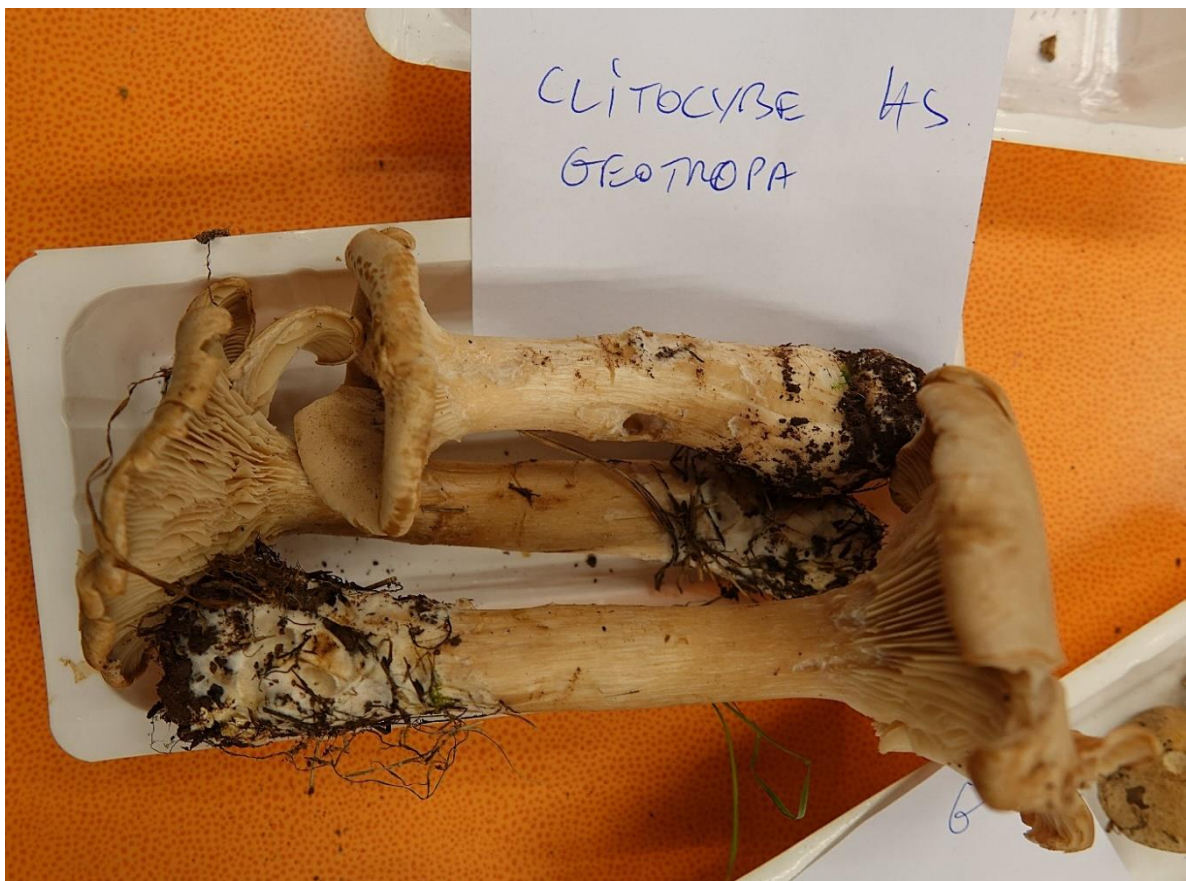

A gauche :

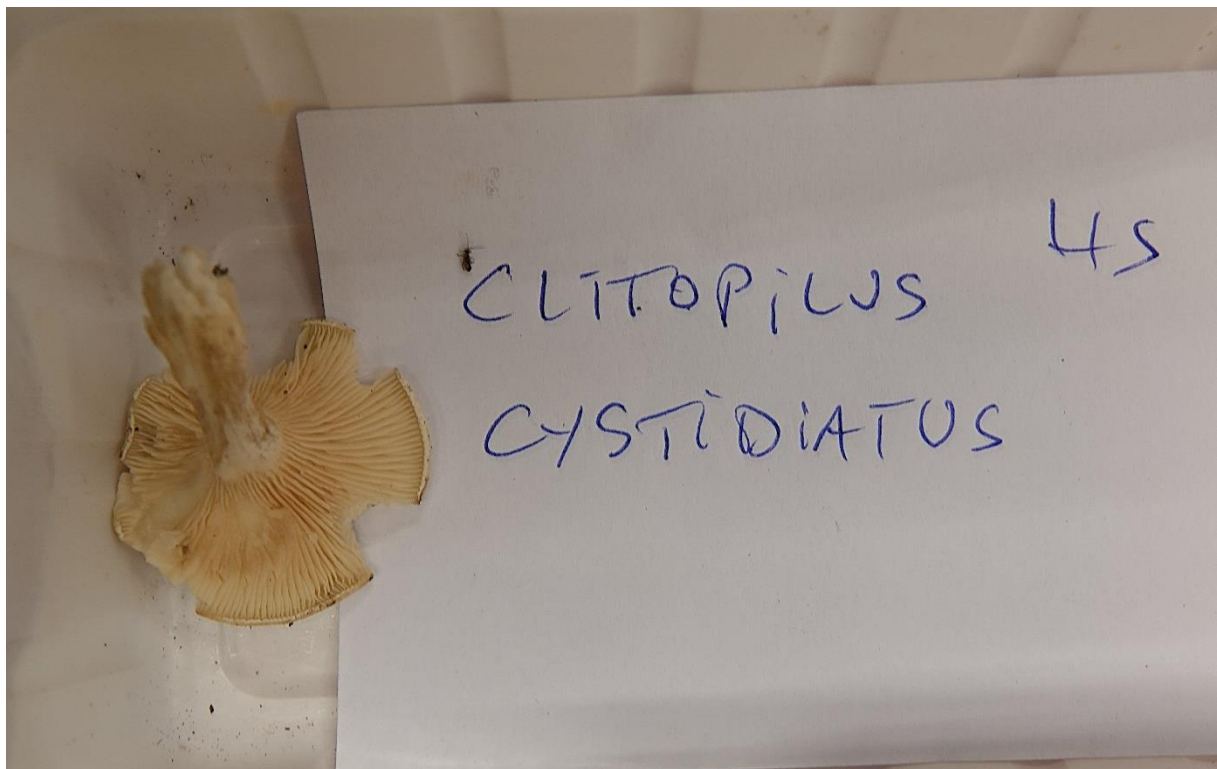

***Cantharellus friesii* Quéél., 1872**
Girolle abricot - Cantharellales - Cantharellaceae

A droite :

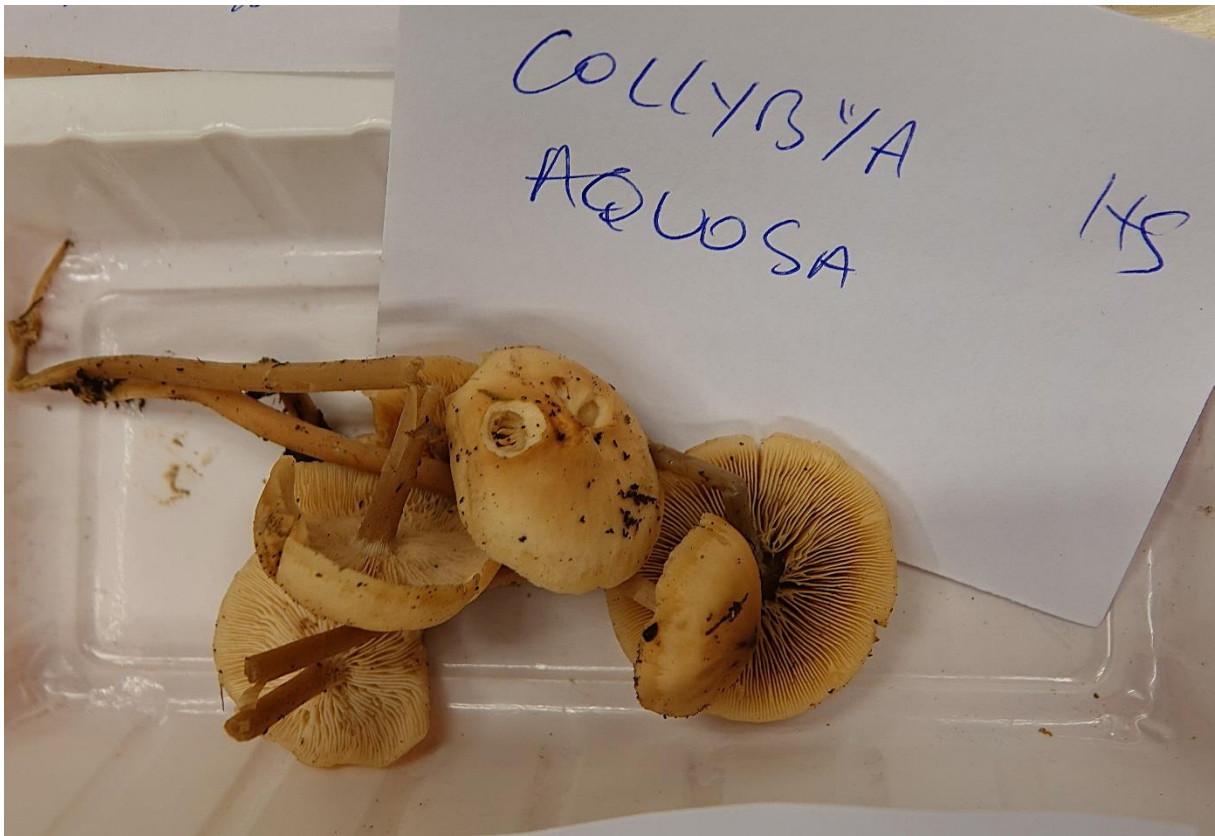

***Hygrophoropsis aurantiaca* (Wulfen) Maire., 1921**
Fausse girolle - Boletales - Hygrophoropsidaceae

***Clitocybe geotropa* (Bull.) Quéél., 1872**
Clitocybe géotrope - Agaricales - Tricholomataceae

***Clitopilus cystidiatus* Hauskn. & Noordel., 1999**
Meunier gris - Entolomatales - Entolomataceae

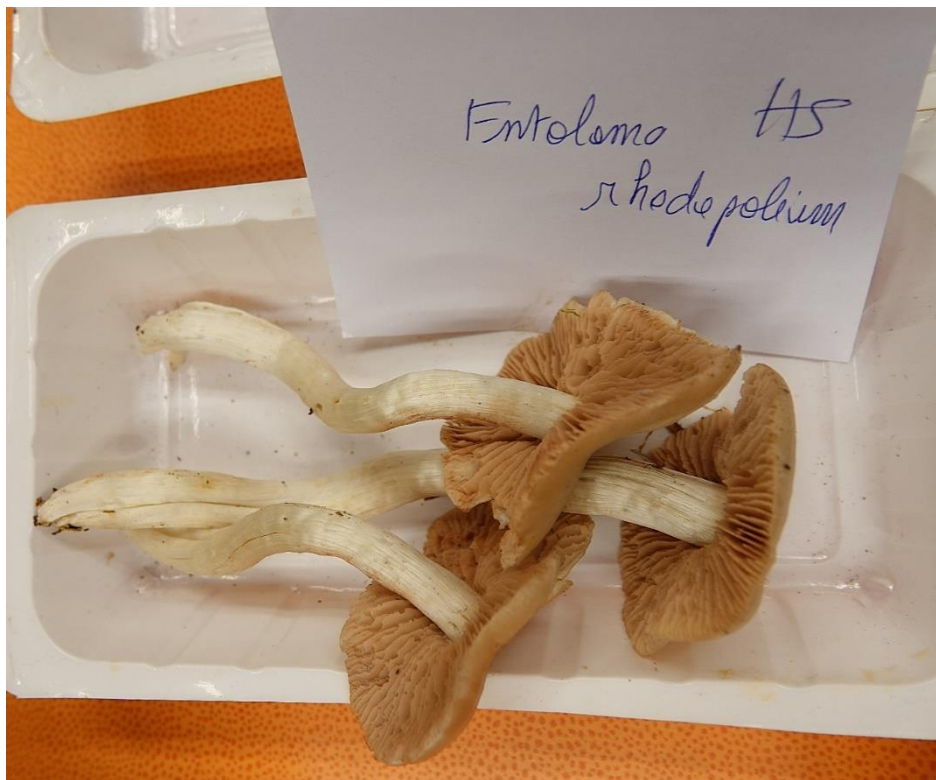

Collybia aquosa (Bull.) P. Kumm., 1871 - Tricholomatales - Marasmiaceae

Cortinarius cinnamomeus (L.) Gray, 1821
Cortinaire cannelle - Agaricales - Cortinariaceae

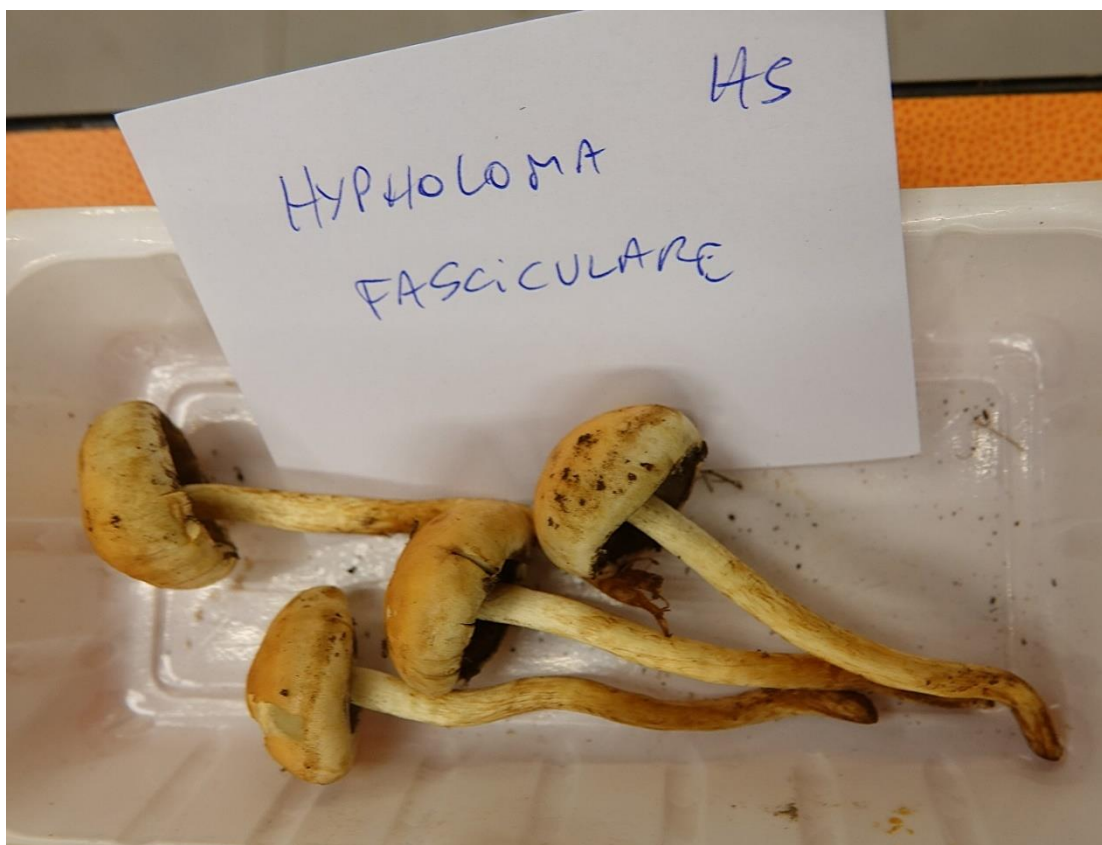

***Craterellus tubaeformis* (Fr.) Quél., 1888**
Synonyme MycoDB non indiqué dans l'INPN :
***Cantharellus tubaeformis* Fries (1821**
Chanterelle en tube - Cantharellales - Cantharellaceae

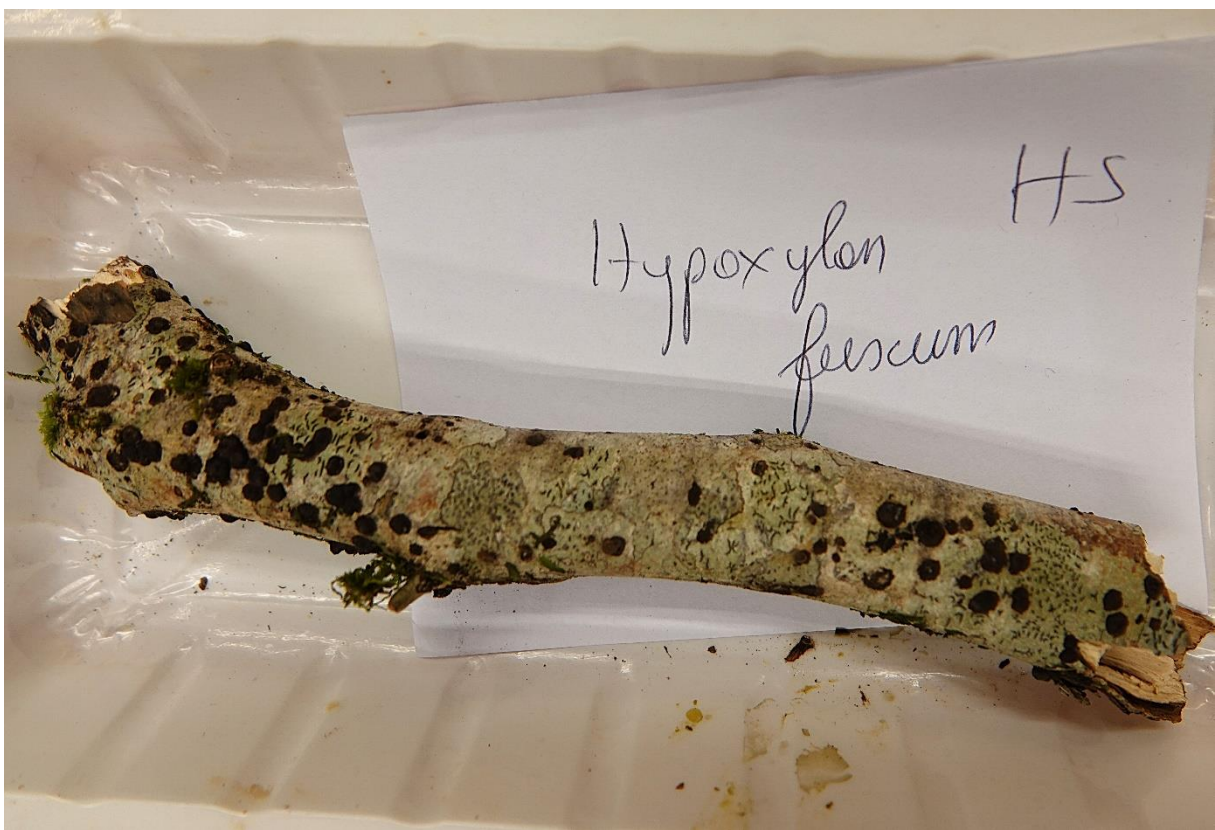

***Entoloma rhodopolium* (Fr.) P. Kumm., 1871**
Entolome rose-gris - Entolomatales - Entolomataceae

Hydnum rufescens Pers., 1800
Hydne roussissant - Cantharellales - Hydnaceae

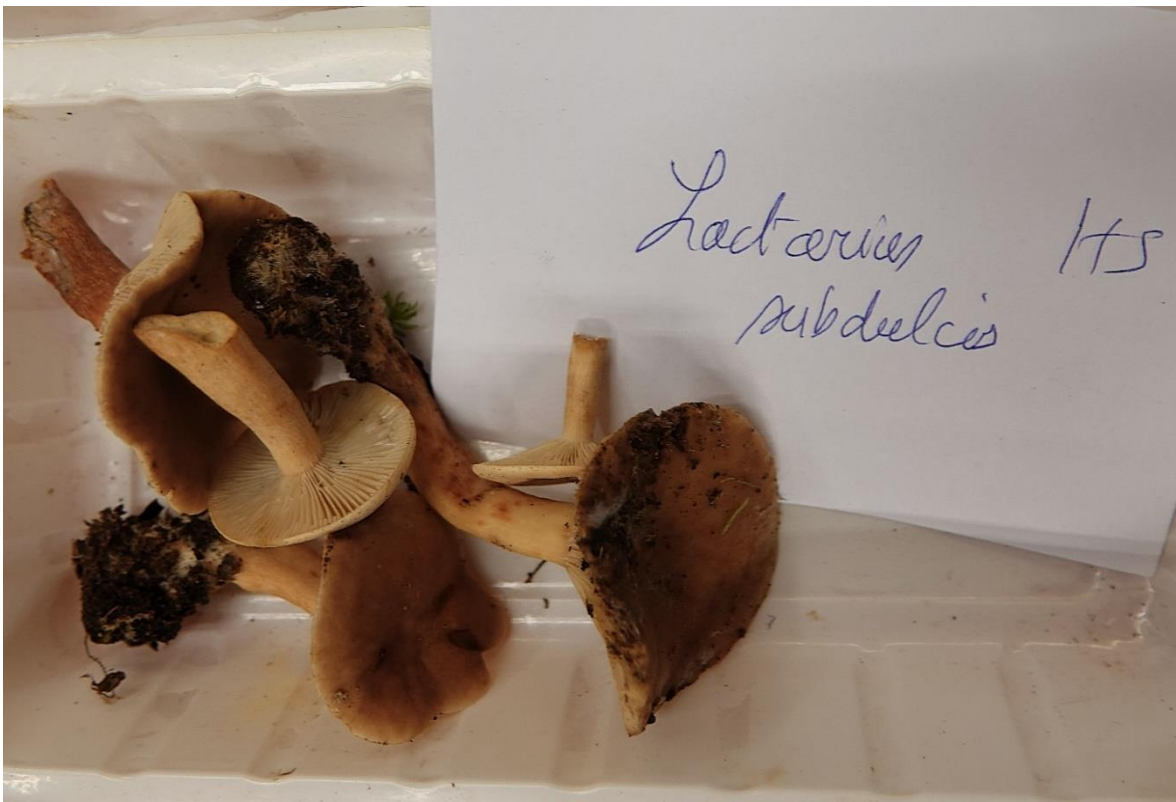

Hypholoma fasciculare (Huds.) P.Kumm., 1871
Hypholome en touffes - Hypholome fasciculé - Géophile
Nématolome en touffes - Agaricales - Strophariaceae

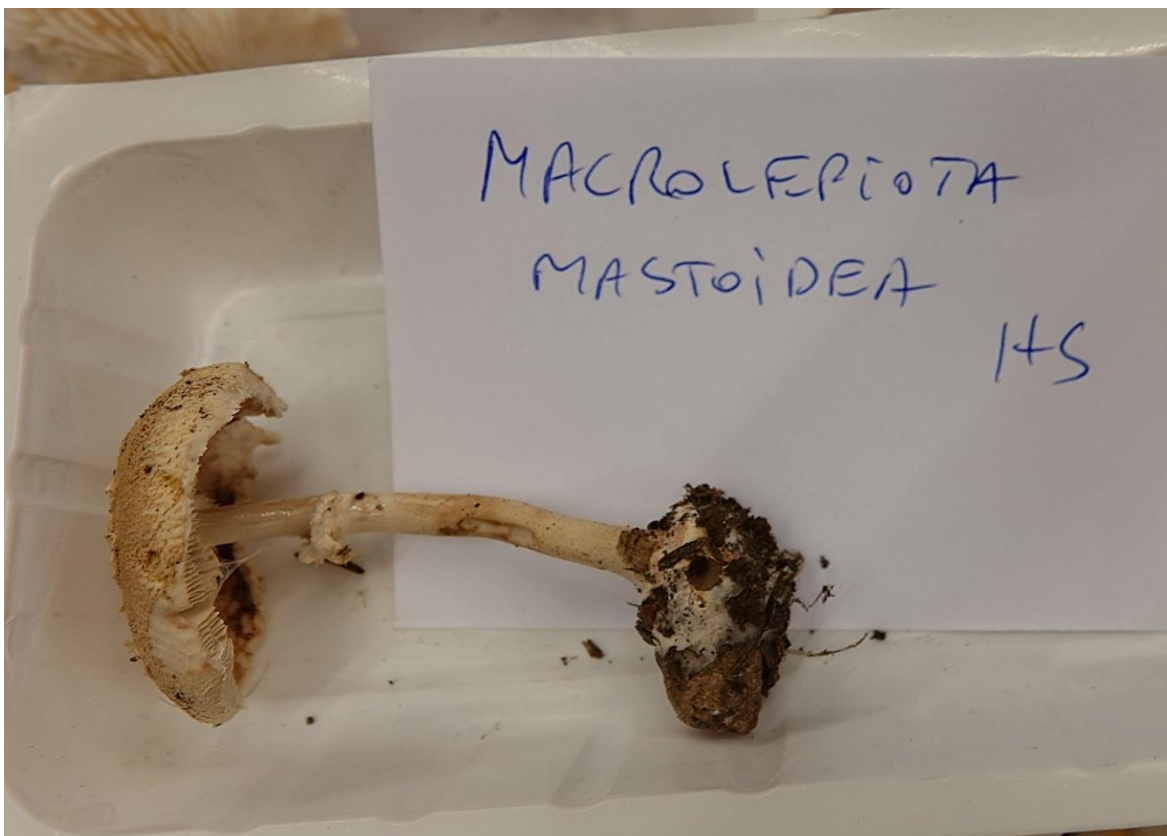

***Hypoxylon fuscum* (Pers.) Fr., 1849 - Xylariales - Xylariaceae**

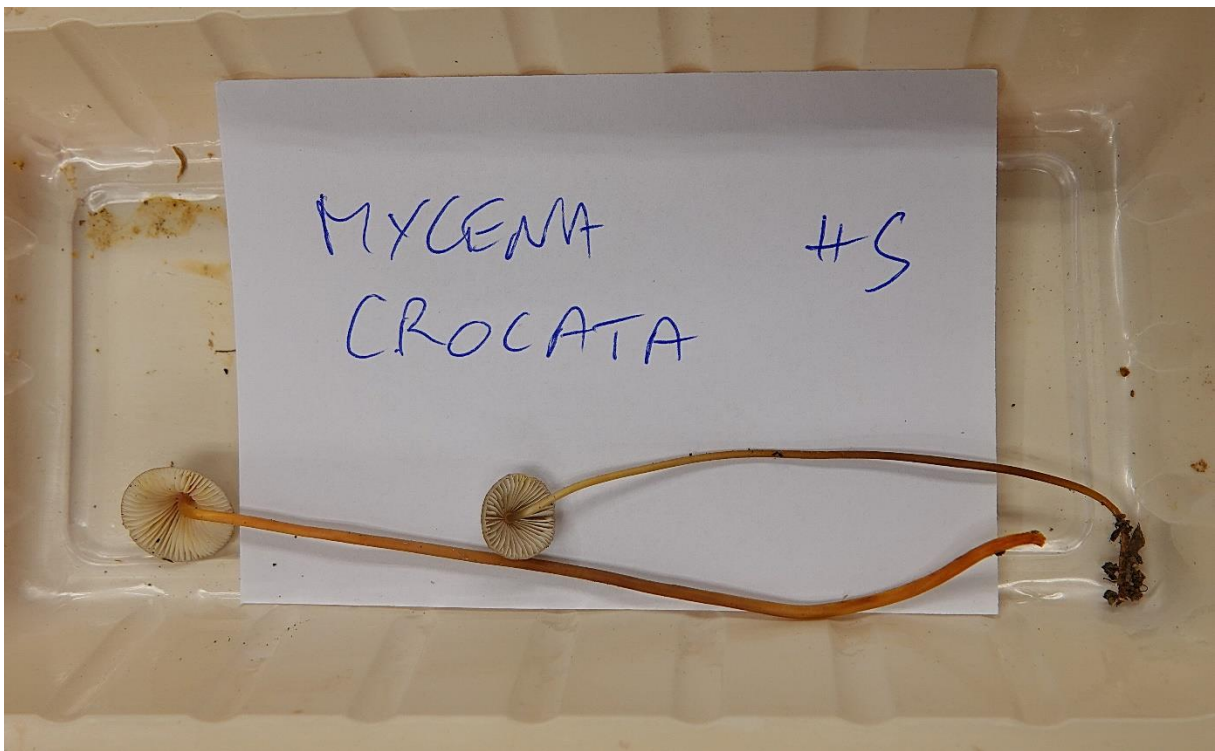

***Laccaria amethystina* Cooke, 1884
Laque améthyste - Hydngiales - Hydngiaceae**

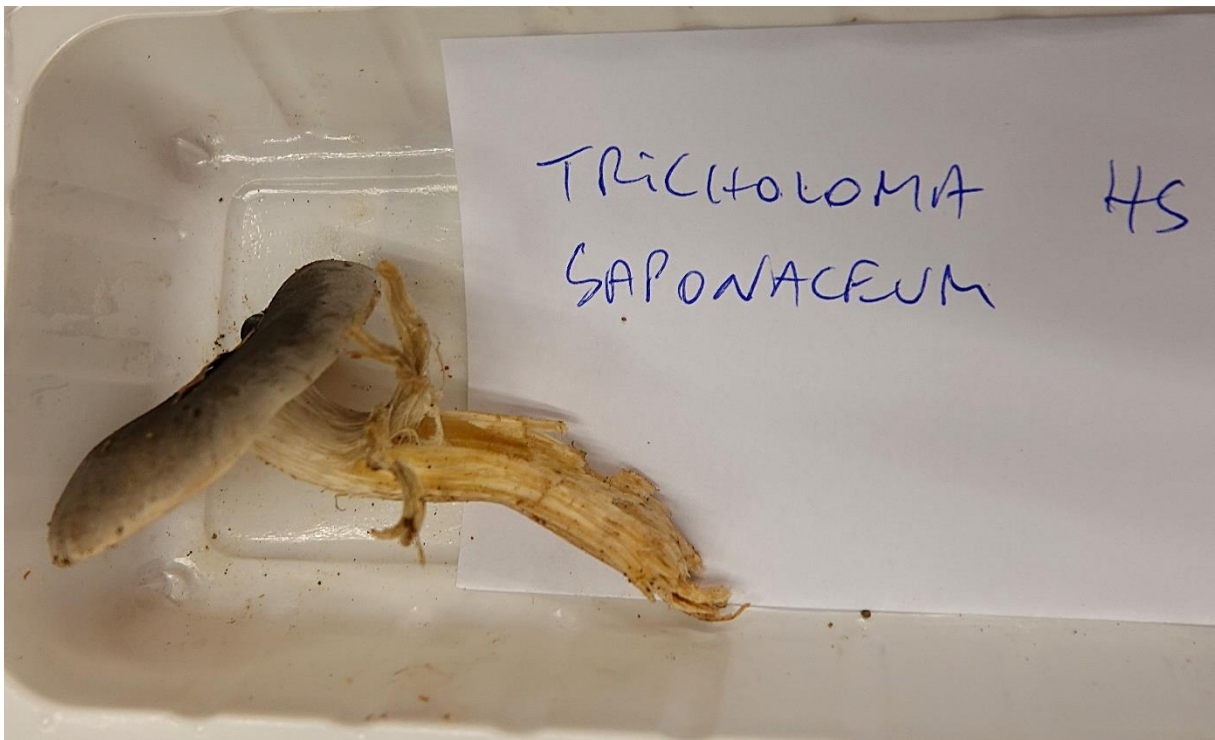

***Lactarius subdulcis* (Pers.) Gray, 1821**
Lactaire douceâtre - Russulales - Russulaceae

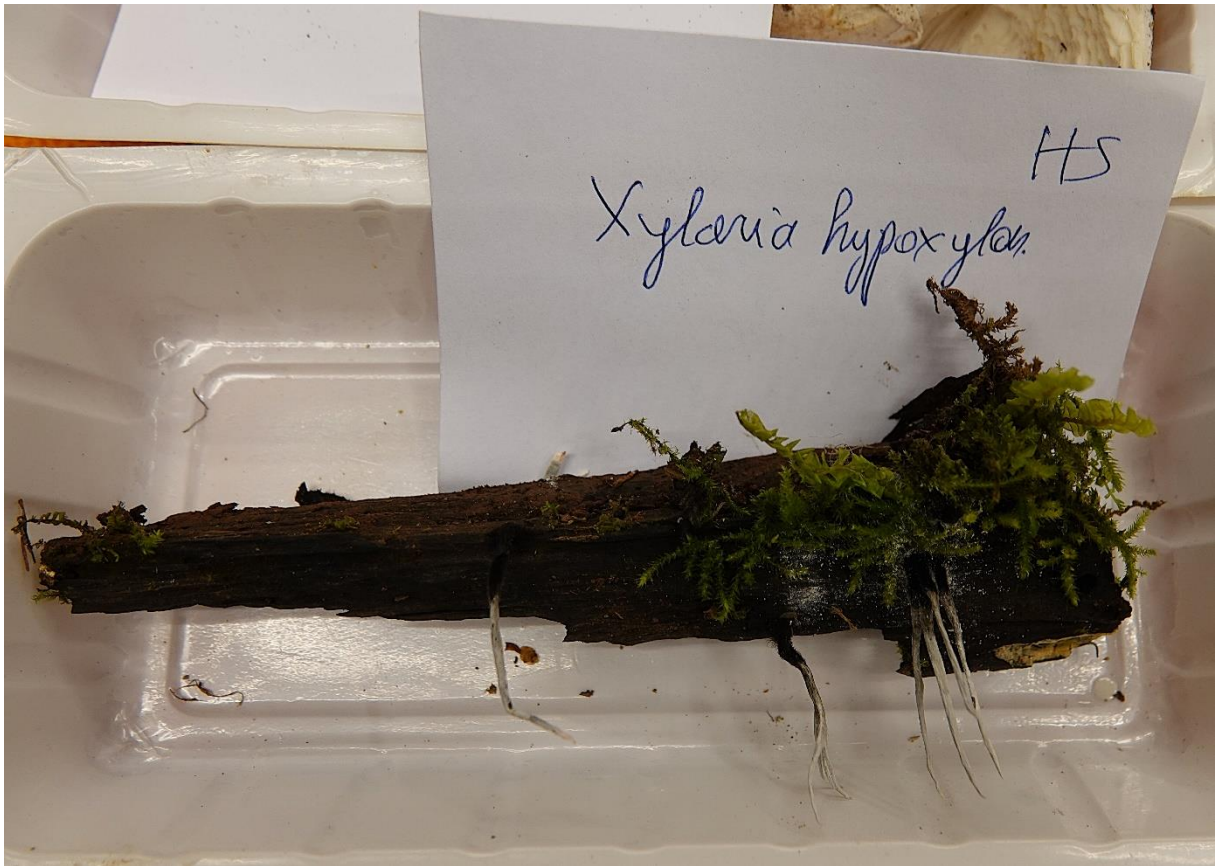

***Macrolepiota mastoidea* (Fr.) Singer, 1951**
Lépiote mamelonnée - Agaricales - Secotiaceae

***Mycena crocata* (Schrad.) P. Kumm., 1871**
Mycène dorée - Tricholomatales – Mycenaceae

***Tricholoma saponaceum* (Fr.) P. Kumm., 1871**
Tricholome à odeur de savon - Agaricales - Tricholomataceae

***Xylaria hypoxylon* (L.) Grev., 1824**
Xylaire du bois - Xylariales - Xylariaceae
